quick and simple set-up

INFORMATION *mm

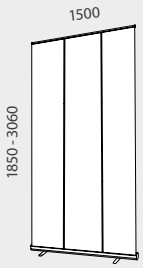
The Nepal Roll Up banner has 4 widths available. The width of 1500mm and 2000mm has 2 pertigas in its structures for a better firmness. Also, the 2000mm wide model has 3 bases to improve its stability. This Roll Up banner stand is an extra wide, extra tall marketing display that is perfect as a backdrop in trade show booths, press conferences, and other promotional events. Because it is so large, the Nepal 1500mm and 2000mm wide are especially suitable when your message needs to be seen from a distance.



If you are looking for something bigger, the 2000mm wide, being the widest roll up of the series Nepal is the perfect alternate to a trade show booth or pop up display. Create a unique backwall design that is equally as impressive as the standard Pop Up exhibits. Nepal Roll Up 2000mm wide is perfect for trade shows, convention centers, press conferences, expositions or media events to create a lasting impression with event attendees at every exhibit.

INFORMATION * W: Width H: Height D: Depth * mm

This window hanging light box for daily use combines the power of LED illumination technology with the elegance of a thin profile. The frame on each model is 17.8mm thick, making it one of the slimmest marketing devices currently available. Small LED bulbs in the sides of the window hanging light box frame prevents against "hot" and "cold" spots appearing on the graphics. The diffusion pattern within the lightbox makes sure that the beams shed evenly over the images. Users can also adorn this LED signage to the wall. The thin window hanging light box showcases posters and graphics in either landscape or portrait orientation.
